PROFESSIONAL SUMMARY

Frontend Developer with practical experience developing ERP systems and responsive web applications using React.js, JavaScript, Material UI, and Bootstrap. Contributed to ERP modules such as Purchase, Sales, Configuration, and E-commerce, developed reusable UI components, integrated REST APIs, and maintained clean, scalable code. Strong team player with a passion for building high-quality frontend applications and continuously expanding technical expertise.

WORK EXPERIENCE

Akij iBos

12 April 2026 – Present
Dhaka, Bangladesh

- Developed and maintained frontend features for ERP modules, including Purchase, Sales, Configuration, and E-commerce, using React.js, JavaScript, and Material UI (MUI).
- Built responsive and reusable user interfaces based on business requirements and application workflows.
- Integrated REST APIs, implemented new features, and enhanced existing functionality across ERP modules.
- Identified and fixed bugs, optimized application performance, and collaborated with team members to deliver high-quality solutions.

Software Developer Intern

- Developed responsive UI components using React.js, JavaScript, Material UI (MUI), and Bootstrap.
- Assisted in developing ERP features, integrating REST APIs, and improving user interface functionality.
- Worked with Git and GitHub for version control while following Agile development practices.
- Collaborated with senior developers on feature implementation, debugging, testing, and code reviews.

TECHNICAL SKILLS

Languages : TypeScript, JavaScript (ES6+), HTML5, CSS3, C, C++
Frontend : React.js, Next.js (App Router), Redux Toolkit, Context API, React Router, TanStack Query, Axios
UI Frameworks : Material UI (MUI), Bootstrap, Tailwind CSS, Styled Components, Framer Motion
Backend & APIs : Node.js, Express.js, MongoDB, REST API, on progess (DOT NET)
Developer Tools : Git, GitHub, VS Code, Chrome DevTools, Postman, npm
AI Tools & Workflow : Claude Code, Model Context Protocol (MCP) Servers, Agentic AI Workflows

KEY PROJECTS

SkillSphere | *React.js, JavaScript, Tailwind CSS, REST APIs*

- Architected an interactive online learning platform featuring dynamic course filtering, multi-layout viewing modes, and real-time state sync.
- Implemented reusable component-based UI structures and optimized mobile-first responsive layouts across client pages. **Live**: Demo | **GitHub**: Repository

MediQueue – Tutor Booking | *React.js, Node.js, Express.js, MongoDB, Tailwind CSS*

- Built a full-stack tutor booking platform enabling users to search, filter, and schedule sessions with qualified tutors.
- Implemented dynamic CRUD operations with role-based features allowing admins to seamlessly create, update, and manage tutor profiles.
- Integrated state management and responsive UI components for a smooth user booking flow. **Live**: Demo | **GitHub**: Client | Server

EveryGPT | *React.js, Tailwind CSS, Framer Motion*

- Engineered a modern SaaS landing page showcasing AI tools with fluid micro-interactions, responsive navigation, and optimized assets.
- Ensured cross-browser compatibility and high visual performance using performance-focused animation structures. **Live**: Demo | **GitHub**: Repository

Business Landing Page | *React.js, Tailwind CSS, Framer Motion*

- Built a business landing page featuring interactive service showcases, scroll-triggered animations, and modern typography.
- Structured lightweight component architecture to maximize render speeds and user interaction. **Live**: Demo | **GitHub**: Repository

EDUCATION

Tejgaon College, National University Dhaka, Bangladesh
Bachelor of Science in Computer Science and Engineering (CSE) Present

LANGUAGES

Bangla (Native), **English** (Professional Working Proficiency)
